

Did You Know?

Most online pharmacies are not safe or legal. They might send you medication that is tampered with, expired, or fake. They might use your personal information to steal your identity. To protect yourself:

- ❖ Only order from online pharmacies in your health plan's pharmacy network.
- ❖ Do not click on links in emails or pop-up advertisements on the internet.
- ❖ Do not order from pharmacies outside the United States.
- ❖ Report pharmacies that offer prescription drugs without a prescription or won't accept your prescription insurance card as a form of payment.

Remember: If the deal is “too good to be true,” it probably is!
